

# Tender Notice

## Colchester Balefill Facility MSW Landfill Capping

The Municipality of Colchester is requesting bids from qualified contractors to construct the final cover of Cells I-1, I-2, and I-3 at the Colchester Balefill Facility in Kemptown, Nova Scotia.

Generally, the scope of work for the final cover construction includes:

- a clay barrier using screened material from an on-site borrow source;
- geotextiles and geocomposite materials;
- a granular drainage layer;
- a vegetative soil layer using compost materials from existing on-site stockpiles;
- hydroseeding the vegetative soil layer and any disturbed areas;
- granular side slope check dams;
- geomembrane-lined side slope ditches;
- clean-out and connection into existing perimeter ditches and drainage infrastructure;
- top of slope diversion berms and future cell cap connection berms
- modifying existing site infrastructure such as manhole grade rings
- erosion and sedimentation control

Tender documents and drawings can be requested from Shawna Harvey by phone at 902-897-8226 or by email at [SHarvey@colchester.ca](mailto:SHarvey@colchester.ca). Tender bids will only be accepted from contractors who have registered and obtained a set of tender documents and drawings from the Municipality of Colchester.
