

REQUEST FOR PROPOSALS  
ENGINEERING DESIGN-BUILD SERVICES  
FUNDY DISCOVERY SITE BRIDGE CONSTRUCTION

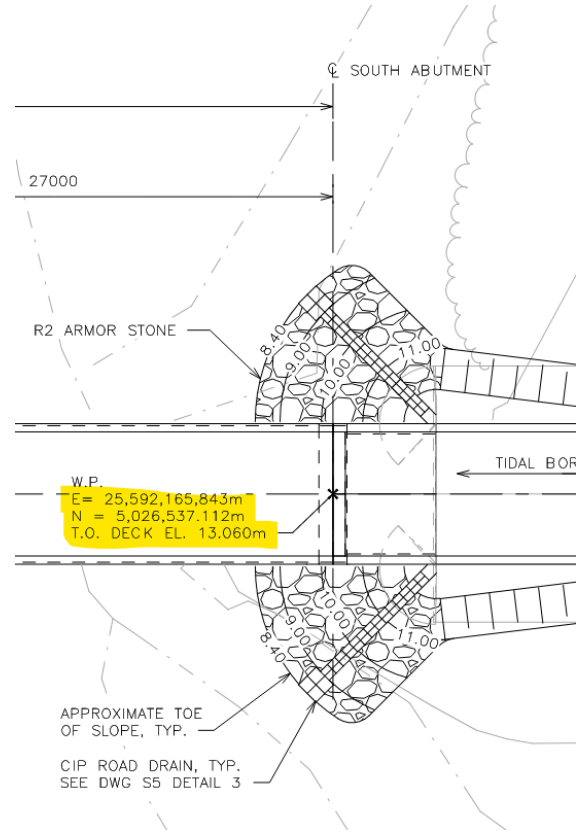

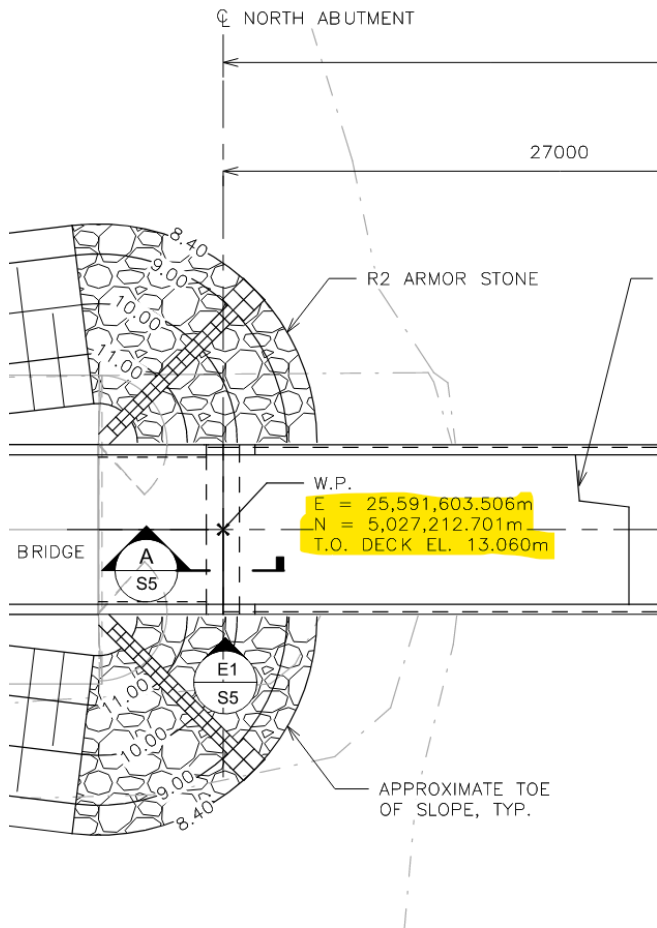

**ADDENDUM #1**

April 17, 2025

**1. The following question was received and answered:**

- A. Question: *Our designers have found that the Working Point (WP) coordinates on the drawing seem in error “the South abutment comes out north of the North abutment”. Can you confirm if the Work Points are correct?*

Answer: Yes, the Municipality can confirm that there was a typo, and the WP coordinates were “flipped” between the two abutments. See below for corrected coordinates

2. Tender Closing will not change as a result of this addendum; it remains as 3:00PM on May 5th, 2025.
